

Join Us in Denver!

PLC+ Institute

OCTOBER 3-4, 2019
DENVER, CO

The PLC+ Institute is a two-day event that provides teachers and teacher leaders with a practical and evidence-based framework, supporting collaborative structures as they plan and implement both student learning and professional learning. Just as teachers work to identify the learning needs of students, PLCs need to identify the learning needs of adult learners. This happens through deep discussion, thoughtful and genuine reflection, and examination of impact.

At the institute you will learn how to:

- Identify current reality of PLC structure
- Design PLC+ structures that positively impact student and teacher learning
- Understand how PLC+ drives equity and appropriate expectations for all learners
- Identify tools and resources to implement PLC+
